

The logo for 1st Photography features the number '1' with 'ST' written inside it, followed by the word 'Photography' in a cursive script. This is enclosed within a blue circular graphic composed of several overlapping lines.

1st Photography Twilight Prep Checklist

If you've scheduled a twilight shoot the following are additional items to prepare before I arrive.

Note that twilight shoots have very tight schedules to ensure optimal lighting, so please make sure all of these items are ready before I arrive.

- Turn on all interior and exterior lights: All lights throughout the property need to be turned on. Please replace all burned-out bulbs at least 24 hours before the photoshoot.**
- Turn on spas and remove covers: If you have a spa, remove the cover, and turn it before I arrive. Turn on the lights in the spa as well.**
- Turn on pool lights: If you have a pool, turn on the pool lights before I arrive.**
- Turn on water features: If you have fountains, waterfalls, or similar water features, please turn them on before I arrive.**

Thank you for your time and patience to go through this checklist! If you have any questions, please feel free to contact me anytime.
